

## 27 September 2017 – 1<sup>st</sup> Pan-European SAFE STRIP Workshop

The [SAFE STRIP](#) project Consortium will organize its 1<sup>st</sup> Pan-European Workshop to be held on September 27 in Thessaloniki, Greece, as a forerunner to the 8<sup>th</sup> INTERNATIONAL CONGRESS ON TRANSPORTATION RESEARCH ([ICTR 2017](#)).

The workshop will bring together all of SAFE STRIP's stakeholder clusters to discuss priorities regarding the goals of the project. The focus of the discussions will be on SAFE STRIP's targeted applications and use cases in alignment with European-level priorities and roadmaps in the domain of C-ITS.

The programme will begin with a presentation of the vision and implementation approach of the project, and will be followed by key note speeches by renowned experts in the field. The workshop will conclude with a roundtable discussion among all participants around the goals of the project in convergence with the latest progress and roadmaps in the C-ITS domain.

Entry for the workshop is free.
